ELSEVIER

Geoderma 68 (1995) 337–338

GEODERMA

Contents Volume 68, 1995

Research Papers

Soil polygenesis as a function of Quaternary climate change, northern Great Basin, USA
O.A. Chadwick, W.D. Nettleton and G.J. Staidl 1

A regular pattern in the relative areas of soil profile classes and possible applications in reconnaissance soil survey
R.M. Lark and P.H.T. Beckett 27

Effects of clay type and rate of wetting on the mellowing of compacted soils
A.R. Barzegar, P. Rengasamy and J.M. Oades 39

Saturated hydraulic conductivity in relation to physical properties of soils in the Nsukka Plains, southeastern Nigeria
J.S.C. Mbagwu 51

Spatial variation and temporal persistence of grapevine response to a soil texture gradient
T. Winkel, S. Rambal and T. Bariac 67

Soil genesis on trachytic and leucititic lavas of Cimini volcanic complex (Latium, Italy)
P. Lorenzoni, A. Mirabella, D. Bidini and L. Lulli 79

Plant-induced spatial patterns of surface soil properties near caulescent Andean rosettes
F.L. Pérez 101

Estimation of Cd^{2+} and Ni^{2+} activities in soils by chelation
Q.Y. Ma and W.L. Lindsay 123

Long-term net soil erosion as determined by ^{137}Cs redistribution in an undisturbed and perturbed tropical deciduous forest ecosystem
F. Garcia-Oliva, R. Martinez Lugo and J.M. Maass 135

Research Papers

A search for the origin of cadmium in the soil of the Swiss Jura
O. Atteia, Ph. Thélin, H.R. Pfeifer, J.P. Dubois and J.C. Hunziker 149

Sources of soil variation in an acid Ultisol of the Philippines
A. Dobermann, P. Goovaerts and T. George 173

Mineralogical, chemical and morphological features of salt accumulations in the Flumen–Monegros district, NE Spain
C. Vizcayno, M.T. Garcia-Gonzalez, M. Gutierrez and R. Rodriguez 193

System for categorizing soil redox status by chemical field testing
R.J. Bartlett and B.R. James 211

Fixed ammonium and carbon–nitrogen ratios of some semi-arid tropical Indian soils
K.L. Sahrawat 219

Erratum

Erratum to "A world perspective on acid sulphate soils" [Geoderma 67 (1995) 263–276]
D.L. Dent and L.J. Pons 225

Announcement 227

Research Papers

A long-term effect of N fertilization on the ^{13}C CPMAS NMR of de-ashed soil humin in second-growth Douglas-fir stand of coastal British Columbia
C.M. Preston and R.H. Newman 229

Opal phytoliths as an indicator of the floristics of prehistoric grasslands
R.F. Fisher, C.N. Bourn and W.F. Fisher 243

Parameter estimation by inverse method based on one-step and multi-step outflow experiments
G. Crescimanno and M. Iovino 257

Spatial variability of topsoil characteristics within one silty soil type. Effects on clay migration
F. Bartoli, G. Burtin, J.J. Royer, M. Gury, V. Gomendy, R. Philippy, Th. Leviandier and R. Gafrej 279

Cation selectivity coefficient variations in acidic forest soils from Sutton, Québec
S. Sauvé and W.H. Hendershot 301

Mineral magnetic properties of acid gleyed soils under oak and Corsican Pine
J.A. Dearing, J.A. Lees and C. White 309

Runoff and soil loss as influenced by selected stability parameters and cropping and tillage practices
V. Rasiah and B.D. Kay 321

Book Reviews 331
